

## OUR MISSION

Atlantis Education System's mission is to facilitate a love of learning for lifelong successful citizens.

Other schools are failing at:

- Preparing Students for Employment
- Maximizing Potential
- Providing Healthy Environments
- Fostering Student Interests
- Engaging the Community
- Supporting Families
- Molding Emotional Intelligence

Or

- Instilling a Love of Learning and More...

Our vision is to replace the current standard education model through the development of individualized learning path and a family focused structure. We keep assignments in school to provide family time while compounding progress in educational and occupational opportunities through involving stakeholders and developing community partnerships.
